

include/vector.h

```
graph TD; A[include/vector.h] --> B[Eigen/Core]; A --> C[Eigen/Geometry];
```

The diagram illustrates a header file dependency. A central box labeled 'include/vector.h' has two arrows pointing downwards to two separate boxes: 'Eigen/Core' on the left and 'Eigen/Geometry' on the right. This indicates that the 'include/vector.h' header file depends on or includes both the 'Eigen/Core' and 'Eigen/Geometry' components.

Eigen/Core
